My clinical background includes both private practice (at intervals since 1996) and Agency practice, where I supervised Intake, interns and experienced clinicians working in trauma and family therapy, from 2004 to 2016.

I am a sr. teaching member of the Canadian Association for Sandplay Therapy and the International Society for Sandplay Therapy. I supervise trainees in Jungian sandplay. I am currently a candidate in Jungian psychoanalysis in Toronto.

I very much enjoy the supervision process and endeavor to make it a non-threatening, positive learning experience for my supervisees.

I primarily practice clinical consultation and supervision, and group supervision.

Please see my website (beatricedonald.com) for more information.
