Bonnie has been providing supervision since 1995 to agencies, groups and individual therapists. She has been an approved supervisor for AAMFT since 2006. She is currently a supervisor with CAMFT. Those counsellors wanting hours to become marriage and family therapists can achieve that with her. Bonnie uses the Satir model along with several other theories. She has intergraded over the past 30 years services to all ages and has a good understanding of most issues clients present with. The process of supervision should include a respectful and trusting relationship where growth can occur.
