My clinical supervision practice consists of individual, paired and group supervision as well as supervision-of-supervision and supervision mentoring groups. I have been an Approved AAMFT Supervisor from 2001 to 2020; a Clinical Supervisor-Mentor with CAMFT since 2019 and also an Approved Clinical Supervisor with BCACC since 2021.

Clinical Supervision processes include; a collaborative supervision contract, attention to specific supervisee learning objectives and goals, exploration of case presentations from multiple theoretical perspectives, attention to ethical practice, using a lens of cultural humility and diversity in viewing therapeutic work and building reflective practice elements with emphasis on the person-of-the-therapist development.

I also instruct/facilitate a didactic-experiential Systemic Clinical Supervision Fundamentals Course. This 36-hour, 3-credit university equivalent, CAMFT approved course meets the training requirements to become a designated clinical supervisor and is offered online annually in the spring and fall terms.

Area of Supervision:

- Clinical Supervision
- Clinical Consultation
- Supervision of Supervision
- Group Supervision

Type of Services

- Online/Remote
- In-Person
