I have been practicing as a Clinical Counsellor and Registered Psychotherapist (Ontario) for 33 years. I supervise M.A. students currently who are completing their practicum placement as well as post placement. I offer a humanistic and client centered approach which incorporates mindfulness principles, with both supervisor and supervisee attending to questions, concerns and insights as they arise in the process. I specialize in Mindfulness + CBT for stress, trauma, positive psychology, and LGBTQ+ issues. I also work with individuals and families at end-of-life and through grief journey.
