My name is Gisella La Madrid, MA, RCC and I am the Clinical Director of Strong Ties - Child & Family Services. In the clinic, we lead new and seasoned therapists who are passionate about helping children, youth and families. For the past 10 years, I have worked in hospitals, non-profits and in private practice and I have humbly supported clients using developmental psychology, attachment theory, family systems, parent education, Synergetic Play Therapy, and emotionally-focused family therapy.

My professional work experience includes assisting pre-schoolers, children and teens dealing with anxiety, depression, ADHD/ASD/FASD, emotional dysregulation, anger/aggressive issues, self-harm, impulsive behaviour, loss & grief and trauma. With adults, I am part of a collaborative law group and I am qualified as a Divorce Coach and Child Specialist. I provide co-parenting counselling, helping families better manage new arrangements after separation.

I have completed specialized training in clinical supervision and I am open to supporting students and new therapists in their journey. Whether it is for discussing a specific case, to receive ongoing support, or to think about ways to manage your professional work, I encourage you to reach out for support, guidance and collaboration within a safe and non-judgemental space.
