I have been working as a Clinical Supervisor for the last ten years. During this time, I have helped over 30 Graduate Intern Therapists to complete their academic requirements and subsequently register and have supported many other Registered Clinical Counsellors to find their therapeutic voice and style inside their practice.

In addition, for those who are in private practice, I am able to offer acumen to assist in building out a financially successful and viable practice based on my own experience, my educational background and my professional background.

I look forward to hearing from you should this speak to you and invite you to reach out to me for an exploratory conversation or visit my website for further information.

Area of Supervision:

- Clinical Supervision
- Clinical Consultation
- Group Supervision

Type of Services

- Online/Remote
- In-Person
