

# Julie Wright RCC-ACS

Hello! I have been working as a counsellor since 2017, as an RCC since 2018, and in the mental health field since 2011. I work specifically with topics relating to sexuality, relationships, and identity and take an intersectional, humanistic perspective in my work. I have been supervising student interns since 2022 and believe supervision and consultation play a role not only in our professional development but also in personal development.

You can read more about my clinical practice on my website at
