

Kari Olson RCC-ACS

I began providing consultation in 2019, which sparked a passion! Since then I have completed the requirements to register and increase my capacity. To date, my areas of consultation and supervision have included not for profit agency counsellors, as well as, supervising graduate level counsellors.

My areas of interest are primarily in addiction and trauma. Although my earlier years of counselling offered support to children, youth, and families. My career in the counselling profession started in 2002, which provides a range of experience. I look forward to the potential opportunity to support your professional counselling journey.
