It is my pleasure to support RCC's through Clinical Supervision. I know first hand how important good supervision is for the well being of both you as a counsellor and for your clients. I have 10 years of supervision experience supporting both graduate students as well as RCCs and it is one of my favorite parts of my practice!

My style of supervision includes a strong emphasis on Person of the Therapist development (Aponte, et al.), and is characterized by warm empathic attunement. Supervision will be provided from an experiential/emotion focused/somatic theoretical framework and include a strong conceptual focus. I would love to connect with you to see if we would be a good fit to work together.

## Area of Supervision:

- Clinical Supervision

## Type of Services

- Online/Remote
- In-Person
